Tony,

Enclosed are the pictures you requested along with pictures I thought you might want to see. Feel free to use or discard the photos as you see fit.

Also, I want to thank you again for the superb job by your organization. I consider myself obsessive when it comes to details, and am usually disappointed by others lack of attention to details. Since our home incorporated the integration of both Timber Frame and Coventional Framing, I was extremely concerned with the original design, and how all components would fit together CORRECTLY. I am 100 % satisfied with the end result. Thanks for taking the time to help design our home in a way that was affordable, providing drawings with extensive attention to detail, installing the project per schedule, and not compromising on craftsmanship. We may not have built a million dollar Timber Frame Home, but to my Wife and I, It sure feels like it. I will always hold Lancaster County Timber Frames in the highest regard.

Sincerely,
Don J. Lynam & Family
