Subject: Your wonderful barn model

Tony,

Hello from the family here at the Heritage Center! I wanted you to know that your barn model has been an absolute hit this year. We had over 25,000 visitors through the museum, and we had a lot of comments in our guest book about the barn model and interactive wall. We appreciate your donation of supplies, time and effort of your staff.

I want to give you an update about the barn and what will be happening within the next year. Of course the barn was located in our temporary exhibit and we are getting ready to move it to an updated space in our permanent exhibit. It will be kept in a storage space for about 5 months until construction on the new permanent exhibit is finished. Of course moving it will be a whole lot of fun.

I know a concern was that it stay in the museum, on exhibit. I, as well as our President, will make sure that visitors will be able to continue to view and study your creation for years to come! It will become a part of the permanent exhibit that will help to show the growth of Lancaster County through time. We are very excited to finish the new exhibit.

If you are interested in receiving tickets when the exhibit is finished, I would love to furnish you with several.

Thank you again for your generous gift to the museum, and if you have any questions, please do not hesitate to contact me.
